Contact Person	Risalat Saeed
Contact Email	risalatsaeed123@gmail.com
Contact Phone No	+92 3369173523
Organization's Mission and Focus	Addressing public health inequities, gender-based violence, human rights and HIV issues of migrants through mass awareness, service delivery, capacity- building initiatives, research and advocacy

Types of Services or Support Offered	<ul style="list-style-type: none"> ➤ Providing comprehensive and free HIV counseling and testing services to returnee/deportee migrants and their families at its field office located in Swat, Khyber Pakhtunkhwa. ➤ Providing linkage to ART centers if a returnee/deportee is tested HIV positive. ➤ Providing awareness to potential migrants at the community level by utilizing our self-support group members.
Target Groups (In Pakistan)	<ul style="list-style-type: none"> ➤ Pakistani Returnee and Deportee Migrants ➤ HIV Positive Migrants and their families ➤ Patients with Hemophilia and Spinal Muscular Atrophy
Geographic Reach	<p>SPEAK has headquarter in Islamabad Capital Territory and a field office located in Swat, Khyber Pakhtunkhwa. SPEAK is providing HIV related services to returnee/deportee migrants at its field office</p>
NGOs with Similar Services Pakistan	<p>SPEAK is the sole organization which is providing HIV related services to migrants and their families in Pakistan. However, there are several NGOs based in Pakistan which are working on other migrant-related issues including Justice project Pakistan and Legal ID Pakistan. Apart from these, there are other organizations which are working only on HIV/AIDS among general population or have a component of HIV in their projects</p>

Partnership Interest	Linkage to healthcare services in receiving country if a Pakistani migrant is HIV positive
Success Stories	<p>SPEAK through its effective community mobilization helped many returnee and deportee migrants in providing them free HIV testing and access to the healthcare services. The most noteworthy are the success stories of Akbar Hussain and Jahanzeb Khan.</p> <p>These two are returnee migrants who were ignorant about their HIV status. Their health condition was deteriorating with no hope to look for. In their difficult times, SPEAK's field staff reached out to them and counselled them to get tested for HIV.</p> <p>After being diagnosed HIV positive, they were referred to the nearest ART centers for medical observation and treatment. Now they are living a healthy life.</p>
